ATHENS, NY

## EXECUTIVE SUMMARY

## THE OPPORTUNITY

Carrow Real Estate Services has been exclusively retained to facilitate the sale of a truly unique investment opportunity located in the heart of upstate New York's majestic Hudson Valley.

279 North Washington Street offers +/-89.42 acres of pristine land prime for development and positioned only a stone's throw from the scenic Hudson River within the increasingly popular upstate destination of the historic waterfront village of Athens.

Located just minutes from the Hudson Amtrack station and NYS I-87, the Property offers easy access to both Albany and NYC.

The Property's current zoning allows for single-family and two-family residential construction with municipal water and sewer located at the street. Other allowable uses include multifamily, senior housing, and many others through a special use permit.

In addition to a multitude of development options, the Property also offers a buyer the opportunity to create a truly spectacular private estate or secluded family compound with breathtaking Hudson River views and access provided by a public boat launch just seconds away.

With all the Property has to offer, this is without question a once-in-a-lifetime opportunity to acquire such a well-located land parcel of this magnitude.

## HISTORIC RIVER VILLAGE

The Village of Athens sits on the west bank of the Hudson River, four miles north of the Rip Van Winkle Bridge in Greene County. First settled in the late 17th century, the village, a port on the Hudson-Athens Ferry, became a thriving hub for shipbuilding, brick making and ice harvesting. The small and friendly community is made up of an eclectic group of artisans, business people, and families who all enjoy the beauty of this historic area and the essence of village life.

## HISTORIC BRICK ROW

The thirty Italianate townhouses that comprise Brick Row were built in 1866 for the employees of the newly constructed Saratoga and Hudson Railroad, whose terminal was located directly behind the houses on the Hudson River. The short-lived railroad ceased its operations in 1876, when its terminal and adjacent docks were destroyed in a massive fire. The only structures that survived the fire were the houses of Brick Row. Today, the neighborhood is the only 19th century workers' housing development still standing in Greene County, and it still looks much like it did a hundred years ago. Visit [www.historicbrickrow.org](http://www.historicbrickrow.org) to learn more.
